Elevate Your Security Canvas: Explore our World of Reports

Welcome to Week 3 of our Gallery Series, where art and technology converge. This week, we focus on the Reports feature—an essential masterpiece within our access control system.

Just as Yaacov Agam meticulously examines every detail of his artwork, our Reports feature allows you to dive deep into your access control data. With customizable reports, gain valuable insights into security events, access patterns, and system performance.

Unleash your inner curator as you navigate through a wealth of data, tailoring reports to suit your needs. Identify patterns, detect anomalies, and track occupancy trends effortlessly. Empowered with this knowledge, you can proactively address security risks and optimize operations

Vol. 3

TECHTalk Educate, Enable & Excite on Reports is coming in August!

Event Reports provide quick and efficient reports based on system events by date and time, you can search to the minute.

Search "Event Reports" by alarm history, credential codes, hardware history, elevator history, operator history, and user history.

Search "Status Reports" by site controller, door status, elevator controller status, device maps, and parking reports.

Historical Logs can be created through our MOBILE CLIENT, using Text Field entry *Event Based Clip Recordings through our Cloud Based VMS Solution

Search Reports

Easily run Configuration Reports and Status Reports on your Mobile Client

Search "Card Holder Reports" by card holders, access, card with overlapping access levels, inactive users, imported cardholders, and by access group or point.

Comprehensive report that can be easily exported and shared.

Search "Configuration Reports" by templates, alarm, access levels, door, elevator, groups, holidays, inputs, unused access levels, schedules, tenants, and time periods.

Stay tuned for our upcoming newsletters, where we'll delve deeper into the captivating world of Yaacov Agam and unveil how our other features embody the same spirit of innovation and artistry!
