🎤 MGI's Technical Engineers

We are thrilled to announce the return of our Tech Talks in July, focusing on the topics of Bluetooth and CCTV. Don't miss out on this opportunity to delve into the latest advancements in these key areas of security technology and how your sites/end-users can use them.

We recognize the demands of busy schedules, which is why we are offering three convenient dates, with three different times to suit your availability. Register once and go to any of the three sessions.

If you are unable to attend on one date, you can easily join us for the next available session, ensuring you seize this opportunity. Don't let traffic slow you down! Join our interactive webinar and transform your car into a mobile learning center. And don't stress if you still can't make it, you will be in the loop when we post the recorded webinar on our YouTube channel!

What will we cover?
CCTV:
- What systems will work with CCTV and Bluetooth readers
- Introduction to MGI CCTV / MIFARE - Bluetooth reader
- Management platforms – MGI Ultra and others
- How our Proxy server works / ONVIF
- MGI Product offerings for CCTV

Bluetooth:
- Introduction to our ColBlu Portal
- How to add Bluetooth tokens
- Why MIFARE is a good idea
- How to install the reader
- How to install the CCTV
- How to get started

Q&A

Stay informed, stay connected, and join us for an immersive Tech Talk experience that will empower you with the knowledge to stay ahead in the ever-evolving world of security solutions.
