

Intuitive

 Use Scanner App to scan IDs, licenses and passports into the system for visitor records.

Mobile

 Use it on any mobile device, ensuring flexibility and convenience in access.

Advanced

 Grant Airbnb guests access after creating temporary profiles in Millennium Ultra.

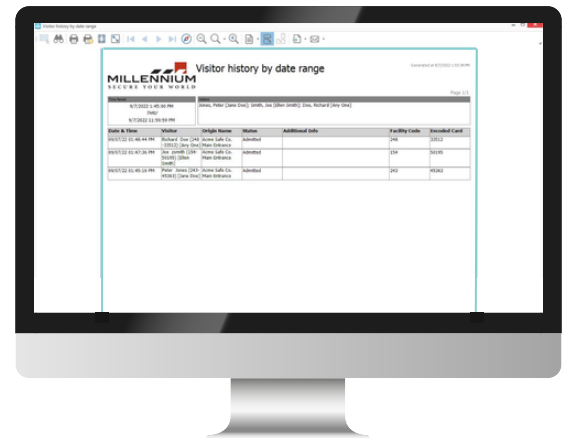

Scalable Solutions

Complete Access Control

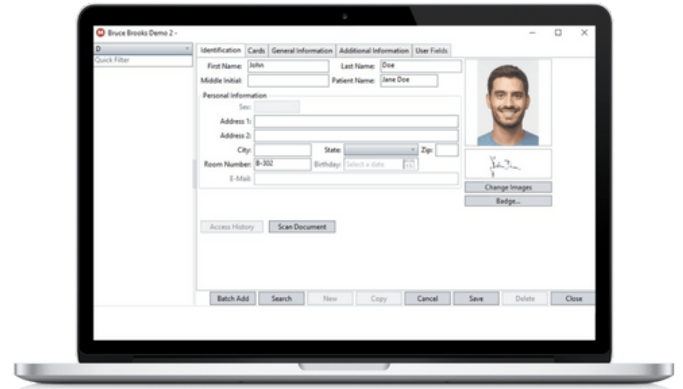

Why Choose Millennium's Visitor Mod?

- Gain access to a comprehensive summary of both past and upcoming visitors, providing operators with essential insights for efficient visitor management.
- Track frequent visitors for the host or organization.
- Millennium allows administrators to grant temporary access to visitors via their smartphones, eliminating the need for multiple steps and enhancing efficiency.

Beyond CLOUD ACCESS, We Grant CONFIDENCE

The Millennium **Ultra** Visitor Management Mod offers an innovative solution for granting temporary access seamlessly. It's versatile, enabling temporary access to a wide range of facilities, from secure buildings to private homes, with customized access levels and schedules. Once a set duration ends, access is automatically disabled. With the integration of the Millennium Mobile Connect Credentials, visitors can now gain access virtually through the UMC app on their smartphones, enhancing convenience and security. This means Airbnb hosts, for instance, can effortlessly grant access to rental spaces with a simple smartphone click after creating temporary visitor profiles in Millennium Ultra.

Why Is Visitor Management So Important?

- Visitor management streamlines the check-in and check-out process, reducing wait times and providing a positive visitor experience.
- In an emergency, having a record of visitors on-site is invaluable for ensuring everyone's safety and accounting for individuals during evacuations.
- In some industries, visitor management is a legal requirement for compliance with regulations and standards.
- Great for multi-tenant customers, longer stay visitors, or seasonal employees.
