FEATURES

- Fastest Outdoor Fingerprint Device
- Vandal-proof Structure
- Dust & Waterproof Enclosure
- Dual Frequency, Multi-Smartcard Reader
- Live Finger Detection Technology
- Power over Ethernet

Why Choose Millennium & Suprema Integration?

Biometric technology connects to access control solutions, and Millennium Group's integration with Suprema's biometric readers amplifies the advantages of this technology. Here's why biometrics is the future of access control:

- **Enhanced Accuracy:** Biometric readers offer unmatched accuracy in identity verification.
- **Tailored Access:** Biometric solutions allow for granular control over who has access to specific areas, enhancing access management.
- **Compliance:** Biometrics often align with regulatory standards, ensuring businesses meet security and compliance requirements.

Biometric pairs well with Ultra Software

- Some spaces require to know who is entering like computer rooms.
- Highly sensitive information for IT, and government projects.
- Access control reports
