

## Efficient

Enhance productivity by conveniently preheating your ovens remotely.

## Easy

Quickly turn on your coffee maker through our smart space solution.

## Cost-Effective

Save money by reducing energy costs with smart lighting control.

## Complete Access Control

## More Is Possible

## Why Choose Millennium Smart Spaces?

Smart spaces are undeniably exceptional for several reasons:

- Optimizing physical workspaces, makes operations smoother and more efficient.
- Valuable insights into resource usage helps manage costs effectively.
- Automating tasks and improving workspace functionality ensures a more comfortable and productive environment.
- Access to data about space usage enables informed decisions and streamlined operations.

# Beyond CLOUD ACCESS, We Grant CONFIDENCE

A Smart Space refers to a physical setting outfitted with interconnected sensors and monitoring devices that leverage IoT technology to enhance energy efficiency, boost productivity in business and public sectors, and facilitate easier and more meaningful human interactions within our surroundings and among people.

Smart Spaces can encompass various settings, including workplaces like offices and shared workspaces, residential areas like apartment complexes or hotels, and public venues such as hospitals, shopping malls, airports, or train stations.

## FEATURES

- ▶ Intelligent lighting
- ▶ Smart space management
- ▶ Ambient controls
- ▶ Smart ventilation
- ▶ Seasonal awareness technology
- ▶ Smart Parking and traffic reduction technology
- ▶ Smart sensors in commercial spaces
- ▶ One-key ON/OFF
- ▶ Flashing remind
- ▶ Power monitoring
- ▶ Push notification
- ▶ Overload protection
- ▶ Smart energy saving
- ▶ Surveillance systems
- ▶ Smart metering
- ▶ Voice recognition and voice commands
- ▶ RFID tagging
- ▶ Microprocessors
- ▶ Motion and proximity sensors.
- ▶ Climate sensors
- ▶ Optical and thermal sensors
- ▶ Gas and level sensors

## Smart Power Plug With Mobile Connectivity

Our Smart Power Plug offers seamless connectivity to your mobile device, making it compatible with both iOS and Android platforms. With the accompanying smartphone app, you can easily control and manage your connected appliances from anywhere at any time. This user-friendly interface allows you to remotely switch devices on or off, set timers, and monitor energy usage effortlessly. Experience the convenience of a truly connected space with our smart plug.
